Fimaks Forage harvester1500

Podstawowe informacje

Cena netto:	42 000 PLN
Marka	Fimaks
Rok produkcji	2025
Kraj produkcji	TR

Dane Szczegółowe

Lokalizacja	Rzędziany
Lokalizacja, kraj/państwo	Poland
Cena netto	42000
Waluta	PLN

VAT [%]	23,00
Wymiary transportowe (DxSxW)	1,85 x 2,5 x 3
Waga transportowa [kg]	970
Gwarancja [miesiące]	12

Dodatkowe informacje:

The Fimaks Double Chop 1500 forage harvester is used to harvest any type of green forage and grass for silage production.

The material is chopped by a shaft fitted with knives, then further transported by auger to the flywheel. The flywheel cuts the grass a second time, resulting in a much shorter chopping length considering standard choppers. The flywheel also transports the chopped material through a trough to load it into the trailer. The floating knives are specially designed to prevent damage to the machine when they hit hard material such as stones in the field

Working width: 1300 mm

Height: 3600 mm

Transport length: 4500 mm

Working length: 2500 mm

Height: 1900 mm

Unladen weight: 970 kg

Power requirement: 65 hp

Number of knives on the shaft: 21 pcs.

Cutting length: 140 mm

PTO shaft revolutions: 540 rpm

Tyres: 2x (165/80 R13)

Throughput: 20 tonnes/hour

Blade sharpener (stone)

Larger model Double chop 2100 (2.1m) also available
