Zapotrzebowanie mocy [KM]:	82
AB GROUP ID:	29918
Lokalizacja	Rzędziany
Lokalizacja, kraj/państwo	Poland
Cena netto	9000
Waluta	PLN
VAT [%]	23,00
Waga transportowa [kg]	595
Gwarancja [miesiące]	12

Dodatkowe informacje:

Bomet cultivator Carina U725/1, 3,2 m

Carina cultivators are designed to prepare the soil for sowing in one pass. They can be used for crushing clods, destroying encrusted soils, weeds and mixing mineral fertilizers with the soil. The machine is equipped with light spring tines, finished with a replaceable coulter. The tines are mounted in 4 rows on the cultivator frame. The spacing between the teeth is 10 cm. At the rear, the unit can be equipped with floating or spring-loaded rollers with a diameter of 295 mm. The working depth of the machine is set by the support wheels and is 12 cm. For heavier, catchment soils with a large number of lumps, it is recommended to use the front roller, which will crumble and break them. For easier aggregation with a tractor, the aggregate can be equipped with a drawbar.

- Working width (m) 3.2
- Working depth (cm) 12
- Number of teeth (pcs.) 32
- Teeth transverse pitch (cm) 10
- Diameter of rear rollers (mm) 295
- Weight of the machine with floating rollers (kg) 540
- Weight of the machine with rollers on the pressure (kg) 595
- Power demand (kW/HP) 60/82

EXPORT: ONLY THE NET AMOUNT NEED TO PAID (with valid EU- VAT number)/ TRANSPORTATION WORLDWIDE POSSIBLE at good conditions. Offer valid while stocks last.
