Domasz vegetable washer MDW-400

MDW-400 vegetable washer is a modern and very efficient machine for washing vegetables, including potatoes.

The design of the device allows changing the inclination angle of the machine, thanks to adjustable front and rear legs. In addition, the hopper has been designed in such a way as to make it possible to configure its height so that it is adapted to the feeding device in use.

The machine is equipped with a frequency converter which allows the rotational speed of the washing drum to be continuously adjusted. At the bottom of the tank, there are 3 drain valves allowing efficient emptying of the soil/water mixture.

- wheels equipped with lubricators
- set of covers and adjustment of the sump position
- Dimensions of the machine: - overall dimensions: 6350 x 1835 x 2250 mm

- washing drum : \varnothing 1500 x 4000 mm

available in two variants of anticorrosive coating:

- partially galvanised
- completely galvanized.

In addition, it is possible to purchase

- a feeding hopper made of bars,
- a bar table placed directly at the product outlet
- end sprinklers
- protective covers for the drum.
