

STONE CRUSHER TUTKUN PUMA

Model	PUMA 150
Working width	150 cm
Max. working depth	bis 20 cm
Working speed	0,3-2,0 km/h
Empty weight	1465 kg
Transport width	178 cm
Length	115 cm
Height	130 cm
Total number of blades	34
Blade material	Carbon carbide
Interior coating	Hardox
PTO shaft speed	540 rpm
Power demand	80 hp
Tailgate	hydraulic

Thanks to its small dimensions and low weight, the PUMA stone crusher is very universally applicable and ideal for the use in fields, greenhouses, slopes, seashores, vineyards, woodlands, orchards and industrial areas.

The machine crushes stones up to 20 cm and cultivates the soil with a maximum working depth of 20 cm. The very strong frame with robust carbon carbide blades and Hardox steel interior make the crusher highly resistant to wear.
